Re: Diamond Alkali Superfund Site, Lower Passaic River Study Area
Administrative Order on Consent, Index No. CERCLA 02-2007-2009
Bill for Collection No. 2721326S0033

Dear Mr. Hyatt:

The United States Environmental Protection Agency (EPA) is charged with responding to the release or threatened release of hazardous substances into the environment and with enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), as amended, 42 U.S.C. Section 9601 et seq. EPA has documented the release or threat of release of hazardous substances into the Lower Passaic River Study Area portion of the Diamond Alkali Superfund Site. In response to the release or threatened release of hazardous substances, EPA has spent, and will continue to spend, public funds on actions to investigate and control such releases and threatened releases at the site pursuant to Section 104 of CERCLA.

On May 8, 2007, EPA entered into an Administrative Order on Consent (Order), Index No. CERCLA 02-2007-2009, with the Cooperating Parties Group (CPG) for the performance of the Remedial Investigation and Feasibility Study (RI/FS). Pursuant to Paragraph 80(a) of this Order, the CPG agreed to reimburse EPA for all Future Response Costs, as defined in the Order, incurred by the EPA in connection with the RI/FS from the effective date of the Order.

This Bill for Collection No. 2721326S0033 covers the period from July 1, 2011 through August 31, 2012.

Enclosure A to the Bill for Collection is a narrative statement describing the Future Response Costs paid during the time period covered by the Bill for Collection. Enclosure B consists of two itemized cost summaries, referred to as Superfund Cost Recovery Package Imaging and On-Line System (SCORPIOS) reports for the Diamond Alkali Site, site identification number 02 96, Operable Unit (OU) 00 and OU 03. For the purposes of the SCORPIOS report, OU 03 represents the expansion of the CERCLA investigation from the six-mile Passaic River Study Area to the seventeen-mile Lower Passaic River Restoration Project.

EPA charges time for both the CPG-lead RI/FS and the EPA-lead work to OU 03, but only charges for the CPG-lead RI/FS are included in the SCORPIOS reports that appear in Enclosure B. Some personnel charged their time to OU00 to represent time spent on all OUs. The OU 00 costs have been apportioned among OU 01, OU 02 (OCC/TSI Removal and OCC/TSI Combined Sewer Overflow/Storm Water Overflow Sampling), OU 03 (EPA-lead work, CPG-lead Removal and CPG-lead RI/FS) and OU 04, as described in the enclosure. While all OU 00 charges are included in the SCORPIOS report for OU 00 that appears in Enclosure B, the Bill for Collection includes only those costs that EPA has apportioned to the CPG-lead RI/FS.

EPA certifies that as of August 31, 2012, it has paid at least \$3,056,921.08 in Future Response Costs in connection with the RI/FS for the Lower Passaic River Study Area.

As per Section XVIII 80.a. of the Order, payment shall be made within thirty (30) days of receipt of this letter. To effect payment via electronic funds transfer (EFT), you should instruct your bank to remit payment in the required amount to EPA using the following information:
